The Mission of the Washington State Association for Justice (WSAJ) is to stand up in the courtroom and the halls of government for real people. We defend your Constitutional rights, including the right to have your day in court. We hold corporate and other powerful interests accountable. We are a community creating and sharing resources for our members to secure justice.

In 1993, the Women of WSAJ (WOW) section was established to encourage female members to participate in focused information exchange and informal mentorship with other female attorneys to further the mission of the WSAJ.

To support aspiring women plaintiff’s attorneys, WOW raises funds from its membership to provide women law school grads and APR 6 law clerk grads with scholarships to help defray the costs of bar review courses. Scholarship recipients will be selected based on several criteria, including (but not limited to) demonstrated interest and intent to practice in the plaintiff’s bar, financial need, academic achievements, extracurricular and community activities, and life experiences. No single criteria is determinative.

The amount and the number of scholarships will be determined by the WOW Section Scholarship Sub-Committee and may vary in amount, up to the full tuition for the bar preparation course. Applicants must be female individuals and must take the Washington State bar exam in July 2015 or February 2016.

Applications are due by Monday January 12, 2015. All applicants will receive written notification from WSAJ of award or non-award by January 30, 2015. Additional application instructions can be found at the end of this form.
