Connecting to the Gonzaga Community Wireless Network: Windows 7/Vista

Windows 7 users:

1. On the right side of the taskbar, you will see a wireless network icon like the one below ⇒ Click it

2. Select Gonzaga Community ⇒ click Connect
Connecting to the Gonzaga Community Wireless Network: Windows 7/Vista

3. Enter your Gonzaga username with `gonzaga\` before it and then your case sensitive password like the box below ⇒ click OK.

![Enter Network Password dialog box](image)

4. When the Windows Security Alert box below appears ⇒ Click **Connect**

![Windows Security Alert dialog box](image)

You should now be successfully connected to Gonzaga Community!
Connecting to the Gonzaga Community Wireless Network: Windows 7/Vista

Vista users:

1. Click the Microsoft Orb ⇒ type Network and Sharing Center in the search box ⇒ press enter

2. On the left side, click Connect to a Network
3. Select Gonzaga Community ⇒ click Connect

4. Click Enter/select additional log on information
5. Enter your Gonzaga username and password. In the Logon domain box, type **GONZAGA** ⇒ click **OK**.

6. Click **Enter/select additional log on information**
7. Click **OK** to validate the server certificate.

8. A window will appear that says **Connecting to Gonzaga Community**.
9. A box will appear stating you are successfully connected to Gonzaga Community ⇒ click close to save the network settings. Your login information will be stored.

10. You may want to delete any unused wireless connections (Gonzaga Courtesy Network, Gonzaga Guest, etc.) From the Network and Sharing Center:
   - Click Manage wireless networks
   - Click to highlight the network to be removed ⇒ right click on the name ⇒ select Remove network
   - When asked Do you wish to proceed? ⇒ click OK
   - Repeat to remove other unused network connections

If you have any questions or need further assistance please stop by the Help Desk or Dalean’s office.
